

NOVA STATUE

SKU: BGW50S

All the magic and mystery of the cosmos are scaled down to fit on any surface in your home. Could you ask for a more fabulous centerpiece? The Nova Small Statue is inspired by the bright burst of an exploding star, lighting up the galaxy (or your room) with celestial sparkle and vibrant energy. Our artisans have captured the phenomenon in polished brass, with dynamic projections that represent an outburst of light. An arrangement of colorful semi-precious stones is fashioned throughout, like planets floating in space. The miniature universe is set atop a thin, gilded stem, and placed upon a geometric pedestal of white marble. Give this extraordinary art piece the spotlight it deserves on the center of a console, mantelpiece, or dining table. Dimensions: W 7" x D 7" x H 13.5"
